Apologies Jamie. Had I seen this message earlier, I would have call you but my meetings starting about 8:30 and it took over 20 minutes for me to get started due to various updates. I am up early so feel free to call me when you want to talk. I log in later to better manage my time (since I no longer earn credit - ☺).

Subject: NE Issue

DeAndre - If you discuss AltEn today at staff meeting, I wanted to mention that NDEE has asked if we could have someone participate in a discussion with the facility. I believe that they will get questions regarding their ability to ground apply the wet cake and/or waste water and would like to have some technical support that could speak to the types of data that would be required to make a safety determination and the complexities.

Ex. 5 DP

If you get a moment before your meetings start today, I think it might be helpful to touch base on a few related items.

Jamie
